

Amendments to the claims:

This listing of claims replaces all prior versions and listings of the claims in the application.

In the claims:

Please amend the claims as follows:

Listing of Claims:

1. (Currently amended) A method for simultaneously interacting with an electronic program guide using multiple devices comprising:

receiving electronic programming guide (EPG) selections entered over the Internet via a web-enabled cellular phone ~~a separate device other than a primary remote~~;
storing the EPG selections on a storage device; and
transmitting the EPG selections to be displayed when requested.

2. (Previously amended) The method for simultaneously interacting with an electronic program guide using multiple devices of claim 1, wherein the EPG selections are stored on a broadcast server.

3. (Previously amended) The method for simultaneously interacting with an electronic program guide using multiple devices of claim 1, wherein the EPG selections are stored on a set top box (STB).

4. (Canceled)

5. (Canceled)

6. (Currently amended) The method for simultaneously interacting with an electronic program guide using multiple web-enabled cellular phones devices of claim 1, further including transmitting the EPG selections over the Internet to the separate device for display on the web-enabled cellular phones separate device when requested.

7. (Currently amended) The method for simultaneously interacting with an electronic program guide using multiple web-enabled cellular phones devices of claim 6, further including transmitting the EPG selections over the Internet to multiple web-enabled cellular phones separate devices to be displayed concurrently on the devices when requested.

8. (Currently amended) The method for simultaneously interacting with an electronic program guide using multiple web-enabled cellular phones devices of claim 6, further including transmitting one or more programs to be separately displayed concurrently with displaying the EPG selections.

9. (Currently amended) A machine readable medium having stored thereon a set of instructions, which when executed cause a system to perform a method comprising:

receiving electronic programming guide (EPG) selections entered over the Internet via a web-enabled cellular phone separate device other than a primary remote;

storing the EPG selections on a storage device; and

transmitting the EPG selections to be displayed when requested.

10. (Previously amended) The machine readable medium of claim 9, wherein the EPG selections are stored on a broadcast server.

11. (Previously amended) The machine readable medium of claim 9, wherein the EPG selections are stored on a set top box (STB).

12. (Canceled)

13. (Canceled)

14. (Currently amended) The machine readable medium of claim 9, further including transmitting the EPG selections over the Internet to the web-enabled cellular phone ~~separate device~~ to be displayed ~~on the separate device~~ when requested.

15. (Currently amended) The machine readable medium of claim 14, further including transmitting the EPG selections over the Internet to multiple web-enabled cellular phones ~~separate devices~~ to be displayed concurrently ~~on the multiple devices~~ when requested.

16. (Original) The machine readable medium of claim 14, further including transmitting one or more programs to be separately displayed concurrently with displaying the EPG selections.

17. (Currently amended) A multiple electronic program guide selection system comprising:
a first unit at a user's location to receive electronic programming guide (EPG) selections entered over the Internet via a web-enabled cellular phone ~~separate device other than a primary remote control~~;
a second unit to store the EPG selections on a storage device; and
a third unit to transmit the EPG selections to be displayed when requested.

18. (Previously amended) The multiple electronic program guide selection system of claim 17, wherein the second unit comprises a broadcast server.

19. (Previously amended) The multiple electronic program guide selection system of claim 17, wherein the second unit comprises a set top box (STB).

Applicant : Dan Kikinis
Serial No. : 09/875,460
Filed : June 5, 2001
